CREATING A SCHOOL PROSPECTUS

A good school prospectus is a valuable marketing tool which allows the school to communicate its core values, celebrate its ethos and achievements, and show off its highlights in a simple blend of imagery and information.

While school websites are the number one touchpoint for parents researching and seeking information about new schools, a prospectus provides a tangible and physical reflection of the school – and gives parents and their children something to take home and look through in their own time.

STAND OUT AS THE BEST

A stunning and eye-catching prospectus is an invaluable tool for attracting both students and staff alike to your school. Our team can help you choose the right type and weight of paper, pick the most effective binding options or help you select the best finish for your school or university. Premium quality prospectuses are what we do best.

PRICING

Every school prospectus is unique, which is why the cost of our printing services is also bespoke. Once we know exactly what you're after, we can provide you with a quote instantly. To speed up the process, please consider the following when getting in touch for a cost:

- Quantity
- Finished size
- Total number of pages including the cover
- Cover: paper type and weight
- Inner pages: paper type and weight
- Binding
- Full colour vs Black & White
- Finishes such as lamination, varnishing and embossing

Not sure about any of the above? Give us a call and we can talk you through the whole process.

We're here to help.
